THIRD PARTY GRADED COINS & CURRENCY

The coin market is speculative and unregulated. Many areas of numismatics lend themselves to third party grading and authentication. Such certification does not eliminate all risks associated with the grading of coins and currency. Grading is a subjective matter and opinions as to the grade of a certified or uncertified item can differ. Items graded by the various services carry the guarantees, if any, of that particular service. Securing performance on any such guarantee is strictly between the purchaser and the particular grading service. Coast to Coast may or may not agree with the grade assigned by the particular grading service. Buyer should be aware that grading standards of coins have changed from time to time in the past and may do so again in the future.

NO OTHER REPRESENTATION, WARRANTY OR GUARANTEE IS GIVEN EITHER EXPRESSED OR IMPLIED.

Free Shipping on orders of $500 or more.

GRADING OF 'RAW' COINS & CURRENCY

Coins: Our grading is based on Photograde and our interpretation of industry standards.

Paper Money: Our grading uses the industry standard as described in Robert Friedberg's, Paper Money of the United States.

1862. $5. F-61b. PCGS. F-12. Apparent. LTN. F-61b, Very decent look for the grade. PCGS has used the apparent designation & mentions a small repaired edge split at top right of center. It is indeed quite small and does not detract from the notes nice appearance. . . . . #219207 $525.00

1869. $1. F-18. PCGS. VF-35. LTN. F-18, $1 Rainbow. A well margined nearly XF example. Faces up really well. . . . . #218094 $1495.00

1880. $1. F-32. PCGS. F-12. Apparent. LTN. F-32, Large Brown Seal, Blue Serial Nos. A very scarce Friedberg number. PCGS has used the Apparent designation to note discoloration on the back and a small edge tear at the bottom center. Neither of these issues are a very big deal given the grade. . . . . #218402 $495.00

1891. $2. F-246. PCGS. VF-30. Apparent. Silver Cert. F-246, Portrait of William Windom. A very attractive note. PCGS has used the apparent designation for mounting remnants on back. In our opinion this is very trivial. All in all quite a nice note for the cost. . . . . #218451 $1395.00

1891. $2. F-357. PCGS. VF-35. PPQ. Treasury Note. F-357, Portrait of General McPherson. A gorgeous note for the grade clearly bordering on full XF. PCGS notes that there is a contemporary inscription on the back. Indeed there is. In the left margin someone has penned Aug. 10, 1895. This inscription does not touch any of the detail, just the white margin. Obviously PCGS thought very highly of this beautiful note so as to not only skip using the apparent designation but to add the coveted PPQ. . . . . #218458 $1995.00

1896. $5. F-269. PCGS. VF-25. Apparent. Silver Cert. F-269, Educational Series. A really pretty example for the grade. PCGS has used the apparent designation to note a paperclip rust stain masked on the back. They are correct, however, it is not something that is easy to locate nor will it take away from overall look of this beautiful note. Outstanding color & detail for the grade. #218453 $2795.00
