Searching
for the

Best!

We're out there 24/7 searching for the best deals in numismatics. So we really know how little new material is coming into the marketplace. We also know how hard we have to fight to secure quality coins and currency at prices that represent good value for you!

Take a close look at this edition of *Rare Coin Monthly*. We don't think you can find a better combination of quality, price, and selection anywhere else!

Monday thru Friday 9am - 5pm EST • Saturday Hours 10am - 4pm EST

Mercury Dime - Super Deal! -

PCGS - MS-65 Coins

We picked up a nice deal of these popular coins which includes a mixture of dates from 1941 to 1945 and has coins from all three operating mints. We offer them "dates as they come" and guarantee all different dates for orders up to five coins!

Only \$23.50 Each #140448

Gem Proof Franklin Half Dollars

These super high quality coins are an incredible bargain at current levels. Consider these two points: With silver around \$32 an ounce, they melt for about \$11.50 each. And any 1964 or before Proof Set brings \$24.00 wholesale, with the half dollar representing the bulk of that value.

We have a nice group of mixed dates with the majority being dated 1962 and 1963 - although there are a few going back to 1959. We offer them "as they come" at an excellent price!

Only \$16.95 Each #140447

GRADING

Grading: Coins

Our grading is based on Photograde and our interpretation of industry standards.

We describe our Uncirculated coins with adjectives, as follows:

Select BU (Select Brilliant Uncirculated)

These are nice Uncirculated coins. We reject coins with unsightly bag marks, below average strikes or unsightly defects. You can expect a very attractive coin.

Choice BU (Choice Brilliant Uncirculated)

These are premium quality Uncirculated coins with above average strikes and luster with cleaner than average surfaces.

Gem BU (Gem Brilliant Uncirculated)

These are our finest Uncirculated coins. They offer superior strike and luster as well as a lack of major abrasions.

Grading: Paper Money

Our grading for all grades is the industry standard:

VG (Very Good): Will be fairly well soiled; may be significantly worn; might have roughness around the edges with only minute problems.

F (Fine): Well circulated with little crispness remaining; edges may be rough.

VF (Very Fine): Some circulation; may show several folds and will have lost some of its crispness and color.

XF (Extra Fine): Circulated; may have some folds; still has some crispness.

AU (Almost Uncirculated): (Almost new) These will be much the same as a "new" note, except for a single fold or several corner folds.

CU (Crisp Uncirculated): No trace of circulation. Can have centering problems, pin holes, counting smudges, wrinkles, close margins, or a corner tip fold (not into design).

Choice CU (Choice Crisp Uncirculated): A nice new note but not quite Gem. Centering may be a little off. May show some aging, light counting smudges, or wrinkles.

Gem CU (Gem Crisp Uncirculated): An almost perfect note. Better than average margins. No aging or fading.
