1863 Copper Nickel Indian Head Cents

– PCGS Graded –

Here's an amazing deal of 1863 cents that hadn't seen the light of day since shortly after they were minted, during the Civil War, 149 years ago. They were stashed in paper wrapped rolls of 25 coins and have the beautiful look of freshly minted cents!

We purchased three of these 25 coin rolls, so there should be enough to go around. Still, you don't want to miss out as the quality is remarkable and copper-nickel cents rarely look this 'fresh'!

OUR 'RAW' GRADING

Grading: Coins

Our grading is based on Photograde and our interpretation of industry standards. We describe our Uncirculated coins with adjectives, as follows:

Select BU (Select Brilliant Uncirculated)

These are nice Uncirculated coins. We reject coins with unsightly bag marks, below average strikes or unsightly defects. You can expect a very attractive coin.

Choice BU (Choice Brilliant Uncirculated)

These are premium quality Uncirculated coins with above average strikes and luster with cleaner than average surfaces.

Gem BU (Gem Brilliant Uncirculated)

These are our finest Uncirculated coins. They offer superior strike and luster as well as a lack of major abrasions.

Grading: Paper Money

Our grading for all grades is the industry standard:

VG (Very Good): Will be fairly well soiled; may be significantly worn; might have roughness around the edges with only minute problems.

F (Fine): Well circulated with little crispness remaining; edges may be rough.

VF (Very Fine): Some circulation; may show several folds and will have lost some of its crispness and color.

XF (Extra Fine): Circulated; may have some folds; still has some crispness.

AU (Almost Uncirculated): (Almost new) These will be much the same as a "new" note, except for a single fold or several corner folds.

CU (Crisp Uncirculated): No trace of circulation. Can have centering problems, pin holes, counting smudges, wrinkles, close margins, or a corner tip fold (not into design).

Choice CU (Choice Crisp Uncirculated): A nice new note but not quite Gem. Centering may be a little off. May show some aging, light counting smudges, or wrinkles.

Gem CU (Gem Crisp Uncirculated): An almost perfect note. Better than average margins. No aging or fading.

Archival Flips – Pack of 100 for \$10.99 #103197

For long term storage we recommend these PVC-free flips. They are too brittle for us to use for shipping, but they offer excellent long term protection for your coins.

Only \$2,695.00 #204025

1921-S Buffalo Nickel

PCGS. MS-65 CAC

Incredibly intense mint luster with light colorful hues of pastel green, ice blue and gold. The strike is excellent and the overall eye appeal is truly compelling!

Only \$11,595.00 #204047

1880-S Morgan Dollar

Dazzling border toning of cherry-red, peach-gold, and jade-green colors on this incredibly well struck and nearly perfect Superb Gem! This is quite simply the most beautiful Morgan Dollar this numismatist has ever seen!

1893-O Morgan Dollar

PCGS. MS-64

Flashy blast white luster on the obverse that is reminiscent of an 'S' mint rather than the normally subdued luster of an 'O' mint. The reverse also has its share of flashy white luster with a very light haze. The strike is as sharp as you're likely to ever see on this rare date and there are very few marks, all of which are very insignificant. Here's a wonderful example of one of the rarest Morgan Dollars of which only 7 have graded higher at PCGS!

Only \$16,250.00 #204051

1896-O Morgan Dollar

PCGS. MS-63

A very high quality example of this scarce date with crisp white luster and a fantastic strike for this often poorly struck date. The few marks that define the grade are well placed as to not harm this dollar's excellent eye appeal!

Only \$7,095.00 #204030

1934-S Peace Dollar

PCGS. MS-65+ CAC

In a PCGS Secure holder. Blazing mint luster and a great strike with beautiful smooth surfaces. Very few trivial marks, and the lightest chestnut hue imaginable, on this incredible, original Gem!

Only \$10,950.00 #204082

1911-D \$2 1/2 Indian Gold Coin

PCGS. MS-62 CAC

Strong D. Extremely well struck with the mintmark being as bold as you'll find on any \$2 1/2 Indian! The lustrous yellow-gold surfaces show a very light green hue which we love to see as it attests to the originality of this exceptional '11-D. This is of course the 'key' to this popular series. The 55,680 coin mintage is more than four times less than the second lowest mintage in the series!

Only \$12,950.00 #203894

1861 \$3 Princess Gold Coin

PCGS. AU-58

A true 'borderline Unc.' as it is difficult to find the bare trace of wear that keeps this rare date from being fully mint state! The luster is rich and flashy and the strike is bold on the obverse and showing a touch of softness on the reverse. Just 5,959 minted and most of the couple hundred or so survivors show considerable wear.

Only \$6,695.00 #203885

1869 Judd-743 Pattern Half Dollar

PCGS. Proof-65

"Standard Half Dollar". Struck in silver, plain edge. High rarity-6. Stunning rose, gold and blue toning give this coin wonderful eye appeal!

Only \$3,995.00 #204083
